

Trustees Report 8-1-18 Mark Unland

Firstly, continued thanks to Jim Gettz for his help and additional volunteer time to take care of our facility. We are blessed to have his active help. Wayne Derr and Dave Poole are often helping with various projects to improve the safety and usability of the church. I also appreciate the help from Deanne Heidrich, the Master Gardeners group, and so many other volunteers that are quietly supporting our church on an ongoing basis.

Fall Church workday: - September 22nd. 9AM - Noon. I will submit info for TWAC and other publications and have a signup table between services for the few weeks before.

Activities to include but not limited to:

- Attack weeds. Killing/removing from parking lots, around other trees, parking areas, buildings, cut back the mint by the Family Life center, etc.
- Prep and paint anything that is already peeling. We supply the paint/materials.
- Repair/Replace any rotten or missing wood trim (ex: the exterior entrances to the old Narthex and Education wing)
- Power wash the mildew off of the north side of the sanctuary
- Clean/prep/paint the base of the handicap door post in front of the sanctuary
- Prep and paint parking lot stripes and handicap places
- Other items if skilled help is available: tree removal, plumbing, LED light installation, security camera movement/installation.

Sump discharge leak: The week prior to Fish Fry, a leak was discovered in one of the mulch beds. This resulted in a lot of digging to uncover the sources of the leaks. We had a failure in a pipe joint, caused by tree roots blocking the pipe at another downstream location. This has now been repaired and water is flowing.

WaterLine rerouting:

Last winter we had burst water lines occur twice. We approved a small budget to reroute these lines. This work started this last week during CUMNS break. The remaining work will need to be done after hours and on Saturdays, so slower progress will be made. Eventually the exposed pipes will be covered.

LED lights: on hold pending research by Ron for alternate funding/grant. \$10K in money was discussed from other church funds was discussed at last leadership meeting.

Eagle projects: Getting updates later this month. One is completing iteration 2 of design for outdoor benches.

Church skills Database:

It would be very useful to me and others if I could find out who would be willing to share their talents and skills to help the way church. We don't have such a database. It also seems a logical extension for the call to service and may help people form new small groups for more fellowship and support.

Display cabinets

The historical committee would love to have some display space to rotationally show some artifacts. I think we need to have at least two. I'm thinking that other small groups, outreach groups, mission teams, etc. would also benefit from having a place to display things for a month at a time. This would also be an

opportunity to get lots of people involved over a course of a year or two, to create these display cases. Several people have talked to me about getting these cabinets.

There is an oak tree that we will be removing. I'm planning on getting that tree sawed into planks and use that wood for some of these projects. I also have some pews from the old sanctuary that I'm willing to donate back to the church. I think that is very appropriate for that use!

In working on these display cabinets, I will be reaching out and expanding the skills/hobbies/interest database, as I'll need artists, wood workers, and other craftsman talents. I just heard that we have people that teach woodcarving! Who knew? And that is part of the point of creating this database.
